EXAMINER'S COMMENTS

In the Advisory Action mailed August 4, 2005, regarding the amendments of claim 2, it was indicated that the phrase "an ambient-to-inside-the-mask inflow flapper valve" was not previously recited in combination nor was a thorough search conducted by the Examiner to specifically find this combination. The Advisory Action further indicated that the amendments of claim 2 would require that a 35 USC § 112, 1st paragraph, rejection be made for lack of written description for this newly claimed element.

In view of further consideration of the originally filed drawings, claims and specification, it is now deemed that the application as originally filed fully supports the amendments of claims 2 and that this feature has been searched.
